**“To move the world we must  
move ourselves”**

## About Podular Design

Podular Design Inc. provides a housing solution which emphasizes straight forward, structurally sound, energy efficient, sustainable homes and buildings. We feature innovative construction technologies which are the base for new modular home projects in markets around the globe. From the high-humidity environments of sub-tropical locations, to the frigid conditions of the arctic. We offer a range of quality prefabricated home systems. From taking that first exciting step until you open the door to your new home, Podular Design takes charge so you don't have to. From timeline to materials to assembly, our experts work together to ensure that your project is stress-free.

## Rapid Completion

---

Modular homes are created with the most advanced technologies available. We manufacture, ship then deliver finished homes and their modular components in a fraction of the time required for traditional construction. Podular Design has the capability to deliver hundreds, even thousands of homes ready for occupancy in a matter of months.

## Attractive Economics

---

Podular refers to high volume, high-capacity manufacturing of preplanned designed delivered as prefabricated 'kits', ready for onsite assembly. What does this mean to you? This means your project can be completed quickly, ontime and on budget. Additionally, economies of scale mean that they can also be manufactured at extremely competitive prices.

## Modular Manufacturing

---

- Provision of experts & engineers as necessary
- Preconfigured interior & exterior components
- Training of local contractors as required
- Government & private sector builder solutions
- Shipping & delivery to project site

## Why choose modular housing solutions?

---

Our innovative approach combines the strength together with the cost-effectiveness of pre-cut, lightweight steel and concrete framing, as well as the flexibility and durability of specially manufactured insulated wall panels. Modular homes offer a variety of optional interior and exterior finishes, that can also be installed on various types of foundations including our patented Cupolex slab foundation system.

## Prefab building features:

---

- Energy efficient
- Durable construction
- Termite & fungus proof
- Hurricane & earthquake resistant
- Onsite assembly & reduced equipment overhead
- Long lasting, providing generations of comfortable living

## Your home. Your way.

---

Your home is your sanctuary, your personal turf, a place where memories are made for a lifetime. You have a vision for your future, and building a custom home offers you the freedom to bring your vision to life.

At Podular Design believe that the experience of creating your custom home should be exciting and rewarding. Our services encompass every aspect of the build, simplifying the process and removing stress from the equation. Podular Design will be with you every step of the journey to deliver the home of your dreams.
